

CORPORATE RESPONSIBILITY

Path Net Zero

In order to make our products more sustainable for the environment, Brook Green with the entire ATS Group has undertaken an initiative with the aimed to reduce the impact of carbon emissions generated by our products.

With an addition of a few cents per person, we invest, in fact, in renewable energy to reduice our impact to Zero.

- The #climate crisis cannot be ignored, ATS Group has taken action by joining the mission to reduce travel, events, flights, hotels and transports #Carbon #impact, to preserve our spectacular destinations for our future generations of travellers.

- Utilising the Path Net Zero technology we now measure the carbon emissions per trip, enabling us to purchase carbon credits to precisely offset the travellers' carbon footprint. Guilt-free travel is a reality!

- The partnership with Path Net Zero supercharges our commitment to sustainability and fits flawless with our larger sustainability strategy.

- Partnering with Path Net Zero empowers our customers with the capacity to lead the way in 'new' travel by choosing environmentally conscious and responsible travel
